Dear Daiva,

Thanks for your very considerate note, I appreciated it, both the prose and the colorful photographs.

I'm pleased that my ideas about multiple intelligences have been useful for your educational work. I am no longer working on "MI" issues but I do maintain a website: multipleintelligencesoasis.org and I occasionally write a blog.

In truth, I've never been to Lithuania, even virtually, and I am about to retire from teaching—but perhaps some day, I will get on a magic carpet and visit your school.

All good wishes,

Howard
